

THE PREMIUM PROPHYLAXIS SYSTEM

LUNOS[®]

MAKING SMILES BRIGHTER

LUNOS® – BRIGHTER SMILES ALL ROUND.

Lunos® is the new premium prophylaxis system from Dürr Dental. In line with our own claim – the best by design – we have developed a comprehensive solution that makes prophylaxis more effective, more convenient and more flexible. The result: routine daily work in the surgery becomes noticeably more relaxed. Of course, top quality is a key element of all Lunos® products and the accompanying consultancy services we offer. With Lunos, one thing is certain: brighter smiles all round from both the dental team and patients.

MAKING SMILES BRIGHTER: THE PROPHYLAXIS SPECIALISTS

The Lunos® prophylaxis system enables effective and time-saving treatment while ensuring low-pain for patients. Application safety and impressive product properties provide relief in day-to-day practice.

Training, comprehensive advice and accessories are also part of the Lunos® prophylaxis system. Because it is so convenient and easy to use, Lunos® is not only a high-performing team player, but it also contributes to a positive atmosphere within the practice team and helps to build successful patient relationships.

LUNOS®

MAKING SMILES BRIGHTER

MAKING SMILES BRIGHTER: THE DENTIST

When it comes to product performance and ingredients used, our Lunos® products meet the highest medical standards. They therefore embody the highest standards in application safety and offer particularly efficient working. The resulting treatment success encourages long-term patient loyalty. In addition, the good water solubility of the powder prevents suction units and amalgam separators from clogging and other adverse effects.

As a result, Lunos® ensures brilliant results: both for your practice and for your patients.

MAKING SMILES BRIGHTER: THE PATIENTS

Your patients will benefit noticeably from the gentle Lunos® treatment philosophy and its excellent medicinal properties. This ensures satisfaction and brighter smiles all round.

A SYSTEM FOR BRIGHTER SMILES: THE LUNOS® PROPHYLAXIS CYCLE.

1 PREPARATORY MEASURES

Lunos® Dental Rinse. Inhibits the growth of plaque-forming, pathogenic germs, preventing inflammation caused by bacteria.

Lunos® Prophylaxis Cushion. Makes treatment particularly comfortable.

Lunos® Prophylaxis Wellness Cloth. Ideal for facial cleaning following treatment.

6 MEDICAL THERAPY, SUPPORTING MEASURES

Lunos® Fluoride Varnish. Sodium fluoride desensitises and reliably protects hypersensitive tooth surfaces.

Lunos® Fluoride Gel. Increases acid resistance of tooth enamel, inhibits the formation of new plaque and contributes to remineralisation.

5 FISSURE SEALANT

Lunos® Fissure Sealant. For effective protection against caries on particularly vulnerable fissures.

Our systematic approach is reflected in all the details of Lunos®. In the perfectly coordinated prophylaxis products and MyLunos, the powder jet handpiece that has been specially developed for it. As a result, Lunos® enables a particularly efficient practice workflow and ensures satisfaction among the entire practice team.

2 SUPRAGINGIVAL CLEANING

Lunos® MyLunos and Lunos® Prophylax Powder Gentle Clean. For gentle and effective removal of discolouration.

3 SUBGINGIVAL CLEANING

Lunos® Prophylax Powder Perio Combi. For the removal of subgingival biofilm, even in deep periodontal pockets, and the gentle removal of light supragingival discolouration. At present, a MyLunos nozzle is only available for supragingival treatment. A Perio nozzle for subgingival use will be available soon.

4 POLISHING

Lunos® Prophylax Paste Two in One. Removes discolouration effectively and polishes in one single step.

Lunos® Prophylax Paste Super Soft. Soft polishing for particularly sensitive surfaces.

Lunos® Prophylax ring. For simple and ergonomical application of the prophylax paste.

LUNOS® MYLUNOS. FOR THE PERFECT WORKFLOW.

Thanks to the way in which the MyLunos system has been designed, treatment interruptions are kept to a bare minimum. With the powder jet handpiece that has been specially developed for the Lunos® prophylaxis system, the way to a brighter smile has never been as simple and convenient. The handpiece is very unlikely to clog, thanks to the perfectly coordinated components, full machine reprocessing capability and the ergonomically designed, perfectly balanced handpiece.* This helps to ensure a perfect workflow. And the best thing of all: thanks to the exchangeable chamber principle, the containers can be filled with powder before treatment and are quick and simple to exchange during treatment.

360 DEGREE ROTATABLE TIP

The tip can be rotated by 360 degrees enabling particularly ergonomic work.

HANDPIECE AND INDIVIDUAL PARTS CAN BE REPROCESSED FULLY AUTOMATICALLY

All individual elements of the handpiece are made of temperature-resistant plastic. And can therefore be thermo-disinfected and autoclaved.

*Available for KaVo, Sirona, W&H, BienAir and NSK turbine coupling.

Please note: At present, a MyLunos nozzle is only available for supragingival treatment. A Perio nozzle for subgingival use will be available soon.

EXCHANGEABLE CHAMBER PRINCIPLE

Particularly easy to change with the bayonet catch, even during treatment. Work interruptions or loss of power due to a low fill level are thus excluded. Different powders can also be used to suit requirements.

PREPARING THE CONTAINERS

The safe valve closure allows the containers to be filled in advance. In the process, the clever storage trays enable flexible filling and storage.

POWERFUL YET GENTLE: LUNOS® POWDERS AND PASTES.

LUNOS® PROPHY POWDER GENTLE CLEAN

For supragingival, fast and effective cleaning and removal of extrinsic discolouration.

- Innovative abrasive agent trehalose:
 - Particle size approx. 65 µm
 - Best cleaning properties with maximum protection for surfaces
 - Slightly sweet flavour
 - Does not irritate mucous membranes
- Best water solubility:
 - Leaves no powder residues in the patient's mouth
 - Protects the suction unit
- Ergonomic bottle with a single-hand flip-spout cap

Flavours: Neutral, Orange and Spearmint

Sales unit: 4 x 180 g

LUNOS® PROPHY POWDER PERIO COMBI

For subgingival and supragingival cleaning. Ideal for recall. Removes biofilm quickly, effectively, thoroughly and yet gently.

- Innovative abrasive agent trehalose:
 - Particle size approx. 30 µm
 - Best cleaning properties with maximum protection for surfaces
 - Slightly sweet flavour
 - Does not irritate mucous membranes
- Best water solubility:
 - Residue-free dissolution in the periodontal pocket
 - Leaves no powder residues in the patient's mouth
 - Protects the suction unit
- Ergonomic bottle with a single-hand flip-spout cap

Flavour: Neutral

Sales unit: 4 x 100 g

LUNOS® PROPHY PASTE TWO IN ONE

The innovative two-in-one solution: removes discolouration and polishes in a single step. Saves time, yet is thorough and gentle on tooth substance.

The abrasiveness of the paste decreases gradually thanks to the self-reducing polishing particles

- Can be used for all treatment needs
- Effective cleaning and polishing thanks to an innovative system of abrasive and polishing agents. Hydroxyapatite supports remineralisation
- Particularly gentle on tooth substance, RDA 28*
- Mint flavour additionally contains sodium fluoride to support remineralisation

Flavours: Neutral, Orange and Mint

Sales unit: 1 x 100 g

LUNOS® PROPHY PASTE SUPER SOFT

Lasting, gentle fine polish, even on particularly sensitive surfaces.

- Universal use, even on implants, orthodontic appliances and dental restorations
- Creates smooth, high-gloss surfaces, and new layers of plaque or calculus take longer to form
- Hydroxyapatite cleans and polishes extremely gently and supports remineralisation
- RDA < 5*

Flavours: Neutral and Orange

Sales unit: 1 x 50 g

*Please read the operating instructions.

MAKING SMILES BRIGHTER: LUNOS® PROPHYLAXIS PRODUCTS.

LUNOS® DENTAL RINSE

Ready-to-use dental rinse for the protection of gingiva and teeth.

- Prevents bacterial-related infections of the oral mucosa and the gingiva
- Inhibits the growth of plaque-forming, pathogenic and odour-causing germs
- Alcohol-free – particularly gentle in case of irritated or inflamed gingiva
- Sugar-free, contains xylitol

Sales unit: 1 x 400 ml, 1 x 2.5 l

Dosing pump for the 2.5 l bottle available separately

LUNOS® FLUORIDE VARNISH

For the desensitisation and protection of sensitive tooth surfaces with sodium fluoride. Easy to apply thinly and is therefore particularly economical.

- Tooth-coloured varnish, no cosmetic impairment for the patient
- Easy to apply
- Adheres reliably to moist surfaces
- Contains 22600 ppm fluoride
- Contains xylitol

Sales unit: 1 x 10 ml

LUNOS® FLUORIDE GEL

For intensive prophylaxis against caries with sodium fluoride. Particularly suitable for use after professional dental cleaning.

- Protects and strengthens tooth enamel
- Supports remineralisation
- Inhibits plaque formation
- Fast and simple to apply
- Contains 12300 ppm fluoride

Sales unit: 1 x 250 ml

LUNOS® FISSURE SEALANT

For aesthetically high-quality sealing of fissures and enamel defects on a composite base.

- Moisture tolerant and hydrophilic
- Application on moist or slightly dried tooth surfaces, effective wetting of the tooth enamel
- Excellent flow properties, very high adhesion to tooth enamel
- Light-curing
- Abrasion stable, highly filled

Available in:

- Clear (without fluoride, specially designed for aesthetic sealing)
- Opaque (with fluoride for lasting protection)

Sales unit: 2 x 1.5 g syringes

LUNOS® PROPHYLAXIS CUSHION

Provides safe and comfortable head support.
Supports head and neck.

- Quick and easy attachment to the head support of the treatment unit via Velcro fastener
- The viscoelastic foam material relieves pressure and reacts to body heat to individually adapt to each patient
- Soft, skin-friendly and waterproof cover
- Washable and disinfectable

Sales unit: 1 unit

LUNOS® PROPHYLAXIS WELLNESS CLOTH

Refreshing, pre-soaked terry cloth, ideal for facial cleaning following prophylactic treatment.

- Individual service for patients
- Hot and cold application possible
- Cares for the skin with aloe vera
- Alcohol-free

Sales unit: 50 cloths individually packed

LUNOS® PROPHYLAXIS RING

For optimised handling through simple application of the prophy paste. Flexible ring size.

- The innovative prophy paste container can be adapted to every method of working
- Ergonomically formed ring for highest wearing comfort
- Reusable
- The edge-free prophy paste container is particularly easy to clean after treatment

Sales unit: 8 items

THERE IS A REASON FOR BRIGHTER SMILES. LUNOS® HAS FOUR.

- 1** Systematic prophylaxis. Fast, effective and convenient in application. For dentists, prophylaxis specialists and patients.
- 2** Premium prophylaxis solution with an extensive product portfolio including handpieces, powder, pastes and cleansing cloths.
- 3** Meets the highest medical standards in terms of product performance and ingredients.
- 4** Low-pain treatment concept and maximum patient comfort.
